

PERSIA ASKED TO STOP OUTRAGES WITNESSES' TESTIMONY CHALLENGED

STEPS TAKEN BY U. S. TO PROTECT CITIZENS THERE

Recent Insults and Attacks
On Americans, Causes
State Department to Pre-
pare Note to Persian Gov-
ernment, Asking That
Action Be Taken to Pro-
tect U. S. Subjects There.

(By The Associated Press.)
WASHINGTON, D. C., July 26.—State Department officials prepared today to formally ask the Persian government to take immediate measures to protect American citizens in that country from attacks and insults from natives understood to be hostile to the result of the killing of Major Robert Imbrie, American vice consul at Teheran, and developments following that affair.

Decision of the department to take this action followed receipt of advice from Joseph S. Kornfeld, American minister telling of insults to Mrs. Imbrie, widow of the former consul, for which a young Persian was said to be responsible.

According to the minister's dispatches, the Persian youth, grabbed the veil worn by Mrs. Imbrie, attempting to tear it from her and at the same time, attempted to strike her. The reported outrage was said to have occurred at Teheran last Tuesday.

A native policeman, reported to have been some distance away from the place where Mrs. Imbrie was attacked but who is believed to have witnessed the affair, made no attempt to protect the woman or interfere with her assailant, the dispatches said.

Mrs. Imbrie was riding with the wife of one of the officers attached to the American mission when the outrage occurred.

State Department officials had decided to await the completion of the investigation being made of the murder of Major Imbrie before attempting any official action, but the responsibility for the vice consul's death. They had received formal apologies from the Persian government for the affair and assurances that full and immediate action would be taken to those who participated in the crime.

Further steps, including the placing of the Teheran district under martial law for the protection of foreigners, also had been taken by the Persian authorities and their actions were being watched by the State Department.

Officials here to believe that the safety of Americans and other foreigners had been assured. It was made plain today, however, that the State Department, without ceasing to believe in the possibility of future attacks by natives upon American citizens in Persia, notice of its decision in this connection was expected to be forwarded for presentation to the minister for presentation by him to the responsible officers of the Persian government.

Special Court of Appeals to Hear Warehouse Case

The appeal in the injunction proceeding which was started here by the Danville Warehouse Corporation against the Tobacco Growers' Co-operative Marketing Association last October and which is now pending before the Virginia Court of Appeals, has been placed on the docket of the special court of appeals which was inaugurated by legislative enactment in June, and will be argued in the fall.

The Warehouse Corporation filed a bill praying for an injunction last October 30, this seeking to restrain the association, the mayor and the commonwealth's attorney from enforcing the provisions of chapter 103 of the acts of Virginia 1923 regulating the sale of leaf on the auction floor. The temporary injunction was granted by Judge Withers but it was dissolved following a hearing before both sides was heard, the hearing being held November 5th and the dissolution being ordered on November 14.

The warehouse concern noted an appeal from the decision and on February 1 of this year, Judge Burks granted the appeal also a supersedeas which in effect continued the injunction until the matter could be finally decided by the Supreme court, as it will be this fall.

Guest for the Week-End.
J. R. Page, Jr., of Thomasville, N. C. is in Danville to spend the week-end with Col. and Mrs. W. M. Kemper at D. M. I. Mr. Page, who is president of the Page Trust Company, at Thomasville, is an old student of Col. Kemper. He is a cadet at the United States Military Academy at West Point, Va., when Col. Kemper was in charge of that institution. He is a nephew of the late Walter Hines Page, ambassador to the Court of St. James during the Wilson regime, and is also a nephew of Frank Page, State Highway Commissioner of North Carolina.

ARRESTED FOR MURDER OF
PARENTS 14 YEARS AGO
SAYS CHARGE-SPITE WORK

(By The Associated Press.)
COATESVILLE, Penna., July 26.—Benjamin F. Dorsheimer, 41, a real estate dealer, was under arrest here today charged with the murder of his parents, Mr. and Mrs. Peter Dorsheimer, in Lancaster, Penna., 14 years ago. He declared his arrest was the result of spite work on the part of his brother, Frank E. Dorsheimer, who swore to the warrant.

The warrant alleges that in order to obtain possession of the estate of the father, a wealthy liquor dealer, Benjamin Dorsheimer asphyxiated his parents as they slept in April 1910. It adds that the deaths at the time were believed to have been accidental and that Benjamin was named executor of the estate.

There was no explanation in the warrant for the delay in making the charge and Frank Dorsheimer refused to discuss the case.

LEOPOLD IS NOT SORRY FOR HIS PART IN MURDER

Wants No Sympathy, De-
claring He Has Made His
Life What It Is Now

(By The Associated Press.)
CHICAGO, July 26.—Upon the pair of horned-rimmed glasses dropped by one of the witnesses, the responsibility for the vice consul's death. They had received formal apologies from the Persian government for the affair and assurances that full and immediate action would be taken to those who participated in the crime.

Further steps, including the placing of the Teheran district under martial law for the protection of foreigners, also had been taken by the Persian authorities and their actions were being watched by the State Department.

Officials here to believe that the safety of Americans and other foreigners had been assured. CO-OPS PAYING OFF TODAY \$200,000 BEING DISTRIBUTED TO FARMERS TODAY

City Crowded With Tobacco
Growers Here to Re-
ceive Second Payment on
1923-24 Crop—Clerical
Force Kept Busy—Mer-
chants Doing Better Busi-
ness.

The distribution of checks to the members of the Tobacco Co-operative Association was instrumental in bringing a large number of farmers to the city this morning. Producers' warehouse on Loyal street is filled with automobiles and wagons, and a large force of men are being kept busy O. King the certificates and passing the checks over through the windows in the office of the warehouse. At the window is a placard bearing the picture of that well-known long-eared mule, and two roosters, with these words accompanying them: "Jack said that you wouldn't get a third payment, Tucker and Oliver said that you would." The large crowd of people who were patiently waiting for their turn at the window were apparently the best humor and the majority of them were wearing smiles on their faces.

The merchants of the city were taking advantage of the situation to try to boost the business that has been on the decline for the past several months, and handbills were being passed among the people setting forth some of the unusual bargains that were to be found at their respective establishments.

Disbursements is being made today at the sixty different pooling stations in the "Old Belt" of \$2,300,000 to members of the Tobacco Growers Co-operative Marketing Association. This is the second payment on the 1923-24 crop.

Estimates of the aggregate amount of the four thousand checks which are being distributed at Producers' Warehouse were given this morning by one official of the concern as \$200,000. The checks, he said, ranged from \$1,000 down to the payment described by him as quite satisfactory to the grower-members. "The payment in effect," he stated, "is 12 1/2 per cent of the banker's valuation of the 1923-24 crop or twenty-five cents per pound of tobacco."

By the middle of the morning several hundred farmers were congregated at Producers' Warehouse waiting to get their checks. The clerical staff was working hard to meet all comers but it was anticipated that it would be impossible to disburse the entire sum sent to Danville within one day.

The distribution of checks started at seven o'clock this morning at which time about 30 farmers were gathered around the office windows. It had been planned to start earlier but the checks were not placed in the office of the local force before 9:45 o'clock.

Remorse never was expressed by either of the boys, detectives said. Reporters who questioned them last night found their sentiments unchanged.

"I do not feel sorry for myself for what I did," Leopold was quoted as saying. "I did it and that's all. I got myself in this jam and it's up to myself to get out of it."

"I have great feeling for my father and brothers. But myself, no. Life is what he made it and I appear to have made mine what it is today. That's my lookout and nobody's else."

He questioned about his disinterested attitude in the court room said he was merely acting natural.

"I sit in the court room and watch the play as it progresses. When I am tired, I go to sleep. When it is time to be serious I am that way. I am a spectator, you know, and I feel myself as one."

"You can tell the people on the outside there is no faking or pretending. I have watched you reporters across the table and you laugh, smile, yawn, look bored and all the other things. Why should I be different?"

Youths Cleared of
Charge of Arson

(Special to The Bee.)
CHATHAM, Va., July 26.—A jury in the Pittsylvania circuit court yesterday acquitted John Hyler, Lonnie Inman and Frank Shumate who were indicted for the burning of a barn belonging to George W. Toler of near Bachelor's Hall. The barn was destroyed shortly after the three youths had visited the place one night several weeks ago.

INDIANS FOX TROT
FAIRBANKS, Alaska, July 26.—Fox trotting is the favorite recreation of the Indians along the Yukon River, according to Miss Katherine G. Kane, a teacher in charge of the native school at Kookria, Alaska. Many of the Indians also have become accomplished jazz musicians, she says.

Boating, bathing, fishing. Park Springs Beach.

BARRED

Senorita Blanca Loudres, who came to this country with Luis Angel Firpo, didn't even get a look-in at the United States. Immigration officials on Ellis Island shipped her out to Havana, Cuba, on the first boat. The girl was supposed to be Firpo's secretary but examination revealed she didn't know a single shorthand character.

Trees Suffer In Cyclonic Storm; Hilltop Damaged

The violent storm which visited Danville early yesterday afternoon, did widespread damage to vegetation in the path of the cyclonic disturbance. In the city, North Danville appears to have borne the brunt of the storm, greater material damage being done there than in South Danville. At the height of the storm, considerable apprehension was caused at Hill Top Sanatorium. The wind tore out three pillars supporting the projecting roof over the men's porch to fruit trees in the garden. Two of these blocked the main highway for some time. Fruit not yet ripe on trees was badly scattered and corn cobs were scattered in exposed sections, suffered.

Ben W. Dodson of Bachelor's Hall, five miles from the city, reported that the storm in his section also did almost complete destruction of the Bachelor's Hall rural telephone system. Owing to the inability to reach sections covered by the telephone system, Mr. Dodson could give no definite account of the storm's toll. He feared that later reports will bring new stories of destruction. His own home trembled under the force of the wind and large trees were felled by the wind in that community. Corn generally was leveled but tobacco does not appear to have been seriously impaired.

Ringgold caught the storm at about two o'clock. In this community the force of the wind was terrific and tore down large trees. Two of these blocked the main highway for some time. Fruit not yet ripe on trees was badly scattered and corn cobs were scattered in exposed sections, suffered.

COOLIDGE REBUKES THOSE
WHO CONDEMNED PLAN

(By The Associated Press.)
WASHINGTON, July 26.—President Coolidge today rebuked as "un-American" the plans of the government for observance of national defense day on September 12.

DEATH CLACK STOPS

LONDON, July 26.—The ancient legend surrounding the "Clack of Death" has once more been fulfilled by the stopping of the famous clock of Henry VIII at Hampton Court Palace, and the death, within a few hours afterward, of one of the palace inmates. It is a tradition that the stopping of the clock portends the immediate death of a palace resident.

CREW REFUSES TO TAKE
OUT "HOODLUM" TRAIN

(By The Associated Press.)
VIENNA, July 26.—The crew of the Innsbruck-Budapest Express today refused to take out the train, declaring it was loaded.

For ten successive days the express, the trainmen said, had stopped dead after passing a "stiff grade" at the Ardor Tunnel, although police stationed at the place have been unable to see any one manipulating the brakes. Yesterday the train stopped three times although engineering experts were watching carefully to discover the cause of the phenomenon.

The railway men assert that the engineers present a great disaster and people are already boycotting trains along this line.

Get comfortable—wear a Morotock suit.

SIXTY-FIVE IN MINE AT TIME ESCAPE INJURY

Bodies of Dead Brought to
Surface Today—Explosion
Occurred Last Night
But Origin Is Unknown—
Investigation Being Made.

(By The Associated Press.)
GATES, Penna., July 26.—The bodies of ten miners, who met death last night when an explosion wrecked a section of the Gates mine of the H. C. Frick Coke Company, were brought to the surface shortly after dawn today. Seventy-five miners were at work when the blast came and a check of the company list showed that sixty-five reached safety.

Coroner S. A. Baltz, who arrived at the mine shortly after the report of the explosion reached him at Lintontown, remained here throughout the night and was prepared today to order an inquest. State mine inspectors aided him in his investigation.

There were 75 men at work in the mine when the explosion occurred, but except for the ten dead all escaped without injury.

On the explosion, the exact cause of which was undetermined, occurred about 7:30 o'clock last night and was local in character, affecting only that part of the mine in which the ten men were working. The mine is of the shaft type and the chamber in which the men were working is located about two miles from the mine entrance. The force of the explosion wrecked the supports and brought down a wall of coal and dirt between the men and their only means of escape.

Gates is a small mining village in Fayette County, near the West Virginia border, and virtually every male resident in the town is employed at the mine.

Twenty-seven children were left fatherless as a consequence of the explosion while nine women lost their husbands. One of the victims was a widower.

The explosion, according to coroner Baltz, was discovered in a most unusual manner. John Kelly, a Gates miner, was returning to Gates from Palmer, three miles away, when he noticed a peculiar settlement of the ground. Kelly stopped to investigate and found that it was coal dust. Knowing that the dust from a mine rarely reaches the surface, he glanced toward the mouth of the shaft and saw a cloud of dust floating from the shaft mouth.

Kelly ran to the Palmer foreman's office and sounded the alarm. Ten rescue crews donned helmets and, believing that the Palmer workings were involved, they went into that mine. Their search was fruitless. Kelly recalled that an old tunnel connected the Palmer and Gates mines and he suggested that the trouble was in the latter workings.

Within a few minutes the rescuers were on the way to the Gates mine. As they reached the shaft they met a crew of miners coming out. These miners, at work two miles from the scene of the explosion, knew nothing of the blast and said they doubted the trouble would be found in the Gates mine. But the rescuers went down and soon found the cave-in behind which the ten bodies were located.

CAMP RO-LI-KI DAM REPAIRED

Repairs to the dam at Camp Ro-Li-Ki which gave way following a heavy rain about ten days ago, have been completed on a permanent way and Secretary E. G. Corwin is now engaged in enrolling boys for the fourth and probably the final camping period which will begin on August 1st. Plans are being made to secure the water in the camp at Camp Ro-Li-Ki during the coming week. After the collapse of the dam which drained the swimming pool efforts were made to patch up the dam but there were only partial successes and it was decided to close the camp pending more permanent repairs which now have been completed.

NEXT WEEK'S WEATHER

(By The Associated Press.)
WASHINGTON, July 26.—Weather outlook for the week beginning Monday.
Middle Atlantic States. Generally fair, first part followed by showers about the middle of the week.
New England. Normal temperatures, with a half-foggy or cool weather latter part of week.
South Atlantic and East Gulf States.—Generally fair at beginning of week followed by showers and thunderstorms middle and latter parts. Temperature near or above normal.

Where is the pleasure in an automobile trip without a Morotock suit?

TOWN TOPICS

The Police and Sheriff's Club held a meeting at the courthouse yesterday, at which a new code of by-laws, as well as a new constitution, both prepared by Police Secretary James J. Gortland, were formally adopted. Other routine matters were taken up and acted upon. The club is in a healthy condition financially. Into the treasury goes all bounties earned by the officers in the application of the Mapp Act. It has made it possible for each policeman to secure a life insurance policy of \$500, the premiums being paid out of the treasury. This group plan of insurance costs the Club \$548 each year, there being 34 policemen.

A meeting of the finance committee has been called for Monday afternoon at two o'clock at which time a special report will be prepared for the special council meeting which is scheduled for the following day. The committee will recommend several amendments to existing ordinances designed along the lines of State laws which recently have been changed. It is expected that the special council meeting will be held in the Chamber of Commerce and will appear and ask for assistance in financing the train shed project to be undertaken by the Southern Railway Company provided the city makes a cost, approximately \$65,000, available.

Police Officer W. K. Kessler, who has been attempting the difficult task of checking city owned automobiles, the owners of which have not registered their cars with the chief of police, will begin summer patrol duty tomorrow. The task has been given quite a hard one, it being difficult to spot all cars not equipped with the city strip. In many instances prompt cooperation has been accorded by car owners but in others only desultory interest has been shown and court proceedings will now be taken against them. Contrary to the general belief there are not as many cars in Danville this year as there were last year. The records of Officer Andrew Perkinson who issues the city strip show that so far this year, 2,607 strips have been issued while last year 2,670 were issued, the latter number not including the strip which secured new tags for those lost.

The 110th Hospital Company of this city which for the past two weeks has been in summer camp at Carlyle Barracks, Pennsylvania, won the regimental honors during the camping period, according to a telegram received this morning from Captain G. A. Ferguson, one of the officers at the local organization comprising more than sixty men. The company is now enroute to Danville, having been ordered to the local contingent, the regimental band accompanying the 110th company to the station where they were given a big send-off.

Thomas O. Moss, manager of the Danville Coal Company, has purchased ten acres of land from C. W. Tinsley on the Franklin Turnpike, on which he will build a ten-room log house for a country home. Mr. Moss also expects to erect a group of buildings for the purpose of producing flowers with which to supply his ship, some time later on.

The county board of supervisors will hold a special meeting at Chatham at eleven o'clock Monday morning for the express purpose of taking action on the proposed opening up of College Avenue, Schoolfield, through its entire length, or from the mill village as far as the Yanceyville road. The matter has been before the county board for several months. The principal question being whether or not one strip of land belonging to H. C. Sicken over which the road passes, shall be formally condemned.

J. M. Thomas this morning awarded a \$10,000 contract to W. King Anderson for the complete alteration and reconstruction of what is still known as the old Cosby factory on Craddock street. This four-story brick building with a Craddock street frontage of 66 feet and a depth of 110 feet was acquired by the late John E. Hughes and some months ago was sold in the process of liquidating the tobacco man's estate. Mr. Thomas purchased it at auction and now plans extensive improvements. The building will be converted into two main sections, each to be equipped with modern glass fronts. Mr. Thomas will occupy one store in which his wholesale drygoods business will be located. In the other will be established a new industry for Danville which will be known, it is understood, as the Western Woolen & Baker Company, this to be, modernly equipped.

Frank Talbot returned late last night from Baltimore where he recently went to enter Johns Hopkins University hospital for examination the result of which has greatly relieved his family and friends. Though weak after the physical overhauling process he feels better and it is anticipated that he will within the next few days be granted a leave of absence in order that he may carry out the doctor's injunctions of a trip for recuperative purposes at White Sulphur Springs.

Special for Sunday—Chicken and barbecue, 12 to 3 and 5 to 8. Park Springs Hotel.

Boost Danville. Wear a Morotock suit on the southern tobacco markets.

JAS. GORTLAND IS QUESTIONED BY THE DEFENSE

Counsel For Leopold and
Loeb Strike Back at Evi-
dence of State For First
Time, When Prosecution
Witness Is Cross Examined
For First Time.

(By The Associated Press.)
CHICAGO, July 26.—In testimony which credited Nathan Leopold, Jr., with a desire to plead guilty before a "friendly judge," was a fabrication, Clarence S. Darrow, chief counsel for Leopold and Richard Loeb struck hard today at this evidence.

It was the first time, since the boys pleaded guilty to the kidnapping and murder of Robert Franks, that their counsel had challenged the state's testimony, a fact brought out by the witness summoned by Robert E. Crowe, state's attorney.

James J. Gortland, detective sergeant, drew the fire of the veteran attorney for the defense, after bringing out that all other conversation between the policeman and Leopold had been recorded in some way, in notes or reports, but that the "friendly judge" remark had not been put down either in writing or short hand.

Darrow asked: "Isn't it true that this whole story of the conversation in which you said Nathan hoped for a prison sentence by a plea of guilty before a 'friendly judge' was a pure fabrication concocted for the purpose of intimidating the court?"

Aside from this attack on Gortland's testimony of yesterday the short Saturday session was rather perfunctory.

An official further identified the glasses found near the culvert where Franks' body was placed, as having been made for Leopold.

A railroad clerk added a bit of evidence to the chain of circumstances which the state claims show that the boys tried to get a second ransom letter to Franks' father by leaving it on the telegram rack of a parlor car in a Chicago depot.

(By The Associated Press.)
CHICAGO, July 26.—Counsel for Nathan Leopold, Jr., and Richard Loeb struck back today at the evidence of the state. For the first time since the opening of the Danvers trial, which is to fix the penalty of the youthful slayers of Robert Franks, a state witness was cross examined at length by the defense.

Detective Sergeant James Gortland, who yesterday told of conversations with Leopold in which the college student defendant revealed his reactions to the crime he had confessed was stubbornly cross examined by Attorney Clarence S. Darrow. Joseph P. Savage, his notes and his experience as a police examiner.

The action of the defense counsel was in the nature of a challenge to the testimony of Gortland, in which witness's statement in chief was examined to the most minute detail.

It was Gortland who yesterday, as the state's sixty seventh witness before Chief Justice John R. Caverly of the criminal court, quoted Leopold as having declared murder to be no crime in his code.

The witness was asked to read verbatim his short hand notes on the statement that if he decided he would prefer life imprisonment to the gallows, he would "plead guilty before a friendly judge."

For a considerable time, the cross examination centered upon the "friendly judge" conversation.

Several times during his questioning the witness Mr. Darrow conferred with his associate counsel, Benjamin Sachrach and the boy defendants listened in on these whispered consultations.

As the fourth day's session began it was learned that the defense had added to the list of witnesses two eastern experts noted for their work in juvenile delinquency.

It was brought out that Gortland made no mention of the "friendly judge" statement to his superiors in official reports, although he persisted in his insistence that it was Assistant State's Attorney Joseph P. Savage shortly after it was made and had talked about it with newspaper reporters and friends both in Chicago and elsewhere.

After an hour's cross examination, Gortland was temporarily withdrawn from the witness stand and ordered not to converse with any one in the court room while Jacob Weinstein, general manager of an optical establishment was called by the state to identify the glasses found near the railroad culvert which yielded Franks' body.

The sudden switching of witnesses was accorded by counsel as an accommodation to Mr. Weinstein who was waiting in the witness room.

Weinstein identified the glasses presented by the state as corresponding exactly to the specifications called for on a "job envelope" on which appeared the name of Nathan Leopold, Jr. They went in as "people's exhibit 46." Gortland was called back to the stand and Mr. Darrow started cross questioning him. He started by drawing out a history of Gortland's work proved to have been chiefly clerical and stenographic.

"You have been called on, then for (Continued on page three)

AUTO TABS

USE WATCH FOR COMPASS
If you have lost your direction, your watch will tell you which way you're facing—if the sun is shining. Point the hour hand to the sun. Half way between the hour hand and 12 o'clock is south.

POPULAR SHORT TRIP

One of the popular shorter trips of the country is the tour around Lake Erie. This includes Niagara Falls, the St. Clair flats and beautiful Canadian scenery.

MORE CARE SHOWN

Motorists are more careful in crossing railroad tracks, report officials of the Long Island railroad. This is more after a check of representative railroad crossings.

FEW CLOSED CARS

Out of the 2,000 motor cars on the island of Jamaica, say auto dealers there, there are hardly more than 10 or 15 of the sedan type. This is because of the mild climate there all year round.

WHITE NUMERALS

Most of the variety of license tags in the United States have white numerals on a colored background. Eleven States are using black backgrounds with white numerals.

WITH HOME BUILDING

Increase of auto sales in the last three years has risen virtually parallel with home building, according to figures filed by the F. W. Dodge Co., and the National Automobile Chamber of Commerce.

Shale Oil in Sweden.

Sweden's deposits of bituminous shale promises a supply of 245,000,000 tons of fuel oil to its motorists. Extraction already has begun for domestic consumption, since Sweden is entirely dependent on other imports for her coal and petroleum.

Mostly Minor Ills.

Most of the troubles with cars are of such minor importance that the owner himself could correct them if taken in hand at once, say engineers at the Automotive Testing Laboratories in Chicago. This is said to be especially true in case of electrical trouble.

N. M. A. Won't Die.

Clubs in the National Motorists Association that have refused to take part in the return to the American Automobile Association, effected recently, have met in New York to continue the N. M. A. Richard H. Lee, formerly of Cleveland and now of New York, is president.

NEGRO INDICTED FOR MURDER ON 3 COUNTS

(By The Associated Press.)
MEMPHIS, Tenn., July 25.—Charles Barr, negro, said to have confessed to the killing of Mrs. Ruth McElwain Tucker, Duncan, Waller, and Obe Spencer, victims of "road-side" slayings, was indicted today on three charges of murder.
Barr, according to the police, admitted that he killed the three persons to rob them. Waller, a traveling salesman of Mayfield, Ky., and Mrs. Tucker were found shot to death near Berclair, a suburb, January 27, 1923. Spencer and Miss Laura Johnson were fired on a roadway near Memphis several months later. Spencer was killed and Miss Johnson was injured.

NINETY PER CENT. OF FILIPINOS FREQUENT MOVING PICTURES

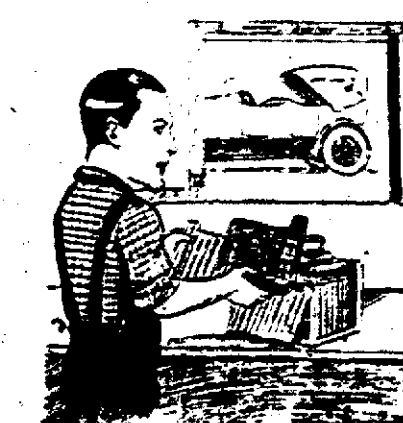

MANILA, July 25.—The Philippine Islands have a total of 214 moving picture theaters, 34 of which are in the city of Manila, according to figures obtained from the bureau of commerce and industry. The province of Occidental Negros, where many sugar centers are located, has 19 picture houses, the largest number of any of the provinces outside of Manila.
Of the 214 theaters in the islands 13 are named "Rizal," in honor of Dr. Jose Rizal, Filipino patriot who was executed by the Spaniards in 1896.
The bureau of commerce and industry estimates that at least 90 per cent. of the population of each town where theaters exist attend the shows at one time or another.

Chicago and New York bus interests are negotiating a merger. Automobiles increased over 1100 per cent. in the last 10 years. Exports of gasoline decreased last May, while imports increased.

SEES PRESIDENT

President Coolidge at the White House. Problems of disabled ex-servicemen were discussed with new national commander of the Disabled American Veterans of the World War, who President Coolidge at the White House.

Future Engine to Be Smaller, More Efficient

By ISRAEL KLEIN

More intensive production of anti-knock fuel may bring about construction of a more powerful, more highly efficient automobile engine.

Manufacturers are already considering the production of such engines, with the increase in popularity and use of the anti-knock fuel called ethyl gas. It is this fuel, they say, that, in eliminating the carbon knock in high combustion engines, makes possible the production of engines of even higher combustion than exist at present.

Present compression of engines about 60 to 70 pounds to the square inch. With the anti-knock fuel, engines of 155 pounds compression might be made.

The reason for such an increase in compression lies in the theory that higher compression produces greater output from the engine. Higher compression has been limited by the tendency of such engines to knock when climbing hills or accelerating, if the spark isn't retarded.

The theory is that the more highly compressed the gas is in the cylinder the easier it is to explode from overheated carbon deposits before the regular explosion takes place.

Ethyl gas, as well as other forms of anti-knock fuel, is designed to cure just this by preventing carbonization as much as possible. With higher compression there is less chance for the compressed gas to be exploded in part by hot carbon, before the entire flow is exploded by the spark.

Engines of higher compression would result in cars that pick up easily, climb hills with little difficulty and travel farther on a gallon of fuel. Smaller engines, for the same output, may be made, cutting down weight and resulting in lighter cars.

Engineers are looking forward to the time when automobiles will afford much more room for passengers on the same size frames they have now.

They vision this advancement by progress in the construction of smaller sizes.

At present, the actual tendency seems to be toward straight eights—longer engines requiring more room on the chassis and therefore more space for the entire car. But the time will come, say some of the more visionary engineers, when the engine will be as small as a motorcycle engine, and it will be directly over the rear transmission, affording direct drive and more room in front.

Such automobiles have already been produced. Examples of cars with rear drive were tried out in Europe recently. Although this principle is still in its embryonic stage, it promises well for adoption within a few years.

With such a small and compact unit underneath the rear seat, the auto on a 120-inch wheelbase may be able to devote all that space for passenger use. Instead of only about 70 inches it affords today.

At the same time, these small engines will afford much greater power and speed than the larger motors of today. Development of the auto engine points that way even today.

MICH. COMMITTEEMAN GOES OVER TO MR. LA FOLLETTE

(By The Associated Press.)
MILWAUKEE, Wis., July 25.—Ira S. Lorenz, who resigned today as Republican national committeeman from Wisconsin, late today reconsidered his earlier announcement, issued a statement in which he said he quit his post to devote himself to the progressive cause. He affirms his allegiance to Robert M. La Follette, independent candidate for president, for the fall.

Number Men Buried in Mine Explosion

(By The Associated Press.)
GATES, Pa., July 25.—Eleven fifteen men are entombed in a soft coal mine of the H. G. Frick Coke Company here as a result of an explosion that occurred about 7:30 o'clock tonight.

The mine is reported to have been reduced to debris. Rescue crews summoned from the entire section are endeavoring to force an entrance into the gas filled chambers.

The cause of the explosion has not been determined. The crews are attempting to dig their way into the mine but up to a late hour tonight have not been able to effect an entrance. The presence of poisonous gases is feared.

The mine is a shaft type and is 250 feet deep. The regular force employed is said to be 315. None of the men employed in the section in which the explosion took place have emerged and it is feared they have either been killed by the explosion or by the gases that formed immediately afterward.

Persons from the surrounding towns have notified and are preparing to care for the men when they are brought out. Gates is a small mining community and practically all the men are employed at the mines.

Is Your Battery Battered?

If it has failed to give good service, if it is weak and about to lay down and die, it needs a battery doctor. That's our specialty—repairing and replacing sick and dead dry batteries for helpless cars. Don't buy new batteries when we can put your old ones in shape.

Safety Chain Secures Payroll

Three strongly armored automobiles in Kansas City are being equipped to save money and securities from bank robbers.

The bank cars are equipped with a steel chain attached to the steel money box and winding on a winch. Whenever the box is taken, even inside a bank, the chain secures it to the armored car.

If robbers happen to hold up the messenger, all he does is drop the money box and the chain is pulled into the car with the box of valuables.

The chain is strong enough to resist cutting except with an acetylene torch. Above is shown one of the armored cars with safety chain in use.

Chatham

CHATHAM, July 25.—The Roanoke Baptist Association will assemble in annual meeting in the auditorium of the Chatham Training School on Monday next. The Association comprises the churches of Pittsylvania county with a few in Henry and Halifax counties and the churches of the county with a few in Henry and Halifax counties. Until very recent years the custom has prevailed to meet each year with some church of the Association but since help for the house wife has become scarce and so hard to get and the attendance large upon the Association the body decided to hold their annual meetings in the Chatham Training School one year and in Danville the following year and this arrangement is carried out the idea suggested many years ago by the late Mr. Jesse H. Hargrave of this place and one of the most loyal and liberal members of the Association.

Everything will be looked after to make the visit of the delegates and other interested of the clergy both pleasant and profitable. The session will continue through the night on Friday night picnic supper will be served by the ladies of the local Baptist church.

On Wednesday night the series of meetings in progress at Fairview church near this place closed with four additions to the church three have been attended by large and interested congregations and the sermons delivered by Rev. P. A. Mickel of Danville were convincing and convicting.

The regular July term of Pittsylvania county circuit court opened on Monday for the term Judge John M. Hart of Roanoke presiding. The visiting judge has impressed most favorably the court officers and attorneys with careful and prompt dispatch of business and many cases have been tried. The term will continue through the week.

Mr. and Mrs. F. E. Thompson of Lester Manor are visiting the home of G. B. Thompson in North Chatham. The family of J. R. Thompson of Emporia will arrive on Friday for a short stay.

Ben Whitmore of Richmond this week joined his family here at the home of his sister, Mrs. W. M. Tredway, Jr.

Mr. and Mrs. J. H. Norvell of Charlottesville Court House were this week guests of Mrs. C. E. Terry.

Mrs. W. C. Gum has not been so well for the past few days but on Thursday was reported improving.

Miss Katherine Slaughter of Martinsville is the guest of Miss Carolyn Thompson.

Mrs. C. M. Tredway of Richmond is visiting her brothers and sisters here.

Miss Ware of Richmond and Miss Carter of Danville are the guests of Miss Gladys Moses.

Mr. Wickham of Greenville, N. C., is a guest of his aunt, Mrs. C. O. Pruden.

The weather for the week has been warm with less rain than for several weeks and the farmers have been busy threshing wheat and laying by tobacco. The crop is reported looking very well all things considered and the wheat crop is reported very good but where it was not well shocked had damaged from the continued wet weather.

Combined Clubs to Afford More Help

WASHINGTON, July 26.—Final completion of consolidation between the old American Automobile Association and the rebel National Motorists Association is expected to result in a combined effort toward greater usefulness to the American motorist.

According to Thomas Henry, president of the new A. A. A., the organization now takes in more than 90 per cent. of the country's auto clubs whose combined influence will be yielded for the betterment of motoring conditions.

Among the objects sought by the new organization will be: 1.—Prosecution of the fake motor organizations, of which there are said to be about 25 scattered about the country.

2.—Establishment of national emergency road service.

3.—Solution to the grade crossing problem to decrease the accidents at these points.

4.—Formation of a motor truck owners' division, a new department in present auto clubs.

Besides these, plans are on foot for a new home for the headquarters here and improvement of the little services the A. A. A. and its member clubs already give to their members.

\$2,000,000 to Build U. S. Forest Roads

WASHINGTON, July 26.—Nearly \$2,000,000 will be expended within the next year by the U. S. Department of Agriculture for the construction and improvement of highways running through and adjacent to the national forests of the country.

With the addition of state funds, the money spent for better roads in the national forest areas will run well up toward the three million mark.

The states in which federal funds will be used for this purpose, include Arizona, New Mexico, Nevada, Idaho, Utah, Minnesota, Montana and Colorado, and the territory of Alaska.

The result is expected to be a greater increase in motoring through these wonder spots for tourists and a greater interest in the national parks and other reservations of the west.

More than 250 miles of new roads will be constructed, and several more miles of completed highway will be improved by resurfacing, widening or regrading.

WHITE MAN ARRESTED AS FUGITIVE FROM JUSTICE

Alvin Ramsey, a white man recently arrested in this city on a theft charge, was yesterday taken to Greensboro, N. C., having been re-arrested in this city by Patrolman Foster Harris at the request of the Greensboro authorities on the charge of being a fugitive from justice. It is alleged that he recently effected his escape from a road-gang.

The number of fugitives apprehended in this city on orders from surrounding cities and towns indicates that the local police are "on the job" when a stranger strikes town and usually know whether to put their hands on him.

REV. C. E. OTEY BEGINS REVIVAL AT UNION GROVE

Evangelist C. E. Otey, of this city, yesterday began a series of revival services at the Union Grove Christian church, Pittsylvania county. Mr. Otey was accompanied to the scene of his evangelistic labors by his family, and they will camp near the church during the continuance of the revival services.

HILLTOP PATIENTS ENJOY OUTING AT BALLOU PARK

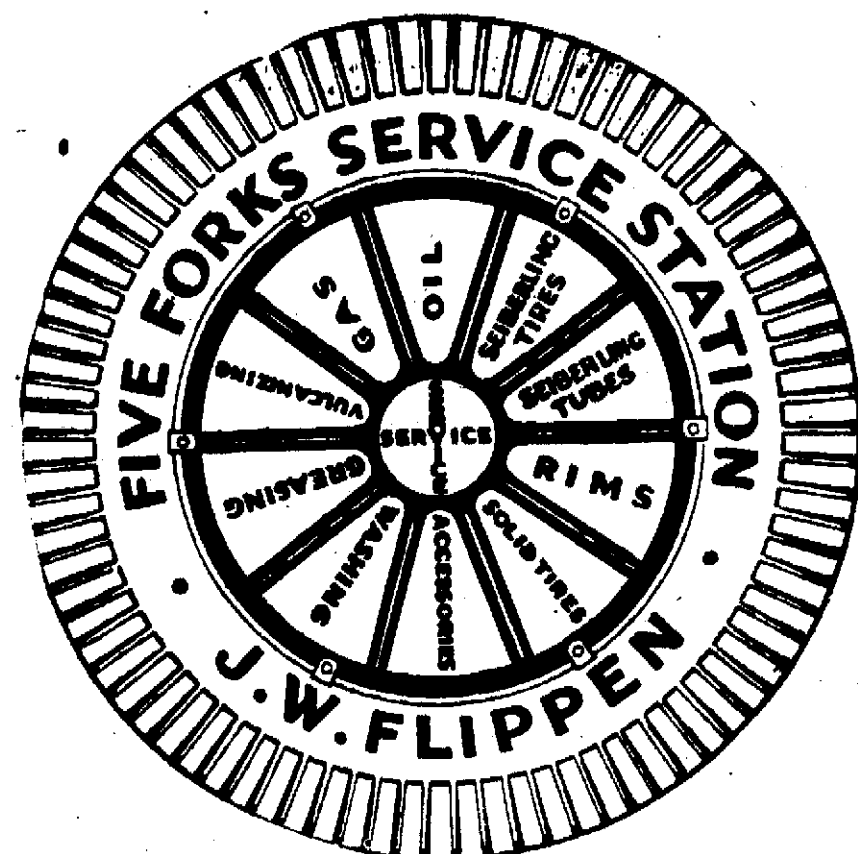

The patients at Hilltop sanitarium, or about twenty of them, had an enjoyable outing and supper at Ballou park, through the kindness and generosity of Charles Reynolds, who transported them to and from the scene of the picnic in the big white car "Miss Virginia." The party went out about 4 p. m., and returning reached Hilltop about 8:30 o'clock. The afternoon was an unusually pleasant variation in the lives of these shut-ins and all enjoyed the coolness of the park, the exhilarating ride to and from and the excellent picnic menu taken along for their refreshment.

Grandstand Gaff

VERYBODY is beginning to wonder what is getting the matter with High Point. The league leaders lost the sixth game in their last seven starts yesterday, and today it was the second straight that the Leafs had taken from Herndon's gang. The strain probably has been too much to stand up under and perhaps the Pointers, like last year, are cracking under it. This afternoon's game, which either McWhorter or Harris will pitch, will decide whether Danville makes a clean sweep just cubs the series.

Resco Gets Another Homer.
Resco seems unable to shake Dave Harris in the home run race. Yesterday George got his fourth circuit swat of the week and his fourteenth of the season. Harris also smacked out a homer and he and George are still tied for second place. George, who is leading the league with 18, seems to be in a slump just now, having not gotten a homer in several games now. If Thrasher doesn't get out of his slump, Resco and Harris will nose him out the first thing he knows.

Wilson Is Whole Show.
It was Lefty Wilson's superb pitching and hefty swatting that gave Dan-

ville that second victory yesterday. Lefty had the hard hitting Pointers at his mercy except in one inning when a couple of doubles resulted in a run. His timely two bagger himself, brought in two runs for Danville to make up for it. The team played errorless ball behind him too.

Out of the 500 Rut.
Now that Danville has gotten out of that 500 percentage rut, maybe the end will be a little more smooth and the boys will hang up a few more games in the wren column than in the lost side. Beating High Point two straight looks like they're in for a consistent winning streak.

Bulls' Tough Luck.
Durham got a tough break yesterday when it hit the game 3 to 0 in their favor and with one more out needed to make it a game, a hard downpour of rain came and terminated the game. But with the score standing that way, it might be the best for Danville. A double header today will be played.

Regan Still Aired in Theft.
Eddie Regan is still way ahead in base thefts. He has swiped 35 bases through last Saturday's game with Trefry second with 21. The next closest was Bourch of Durham with 17. All Eddie and Art need to do is get on and they manage to do it around some, unless it's a mighty bad day with Lefty Luck against them.

Race For Honors In Major Leagues Is Very Close Now

(By The Associated Press.)
NEW YORK, July 25.—The race for inter-sectional honors in the two major leagues is close with the western contingents of both circuits, having a slight advantage over the eastern quartettes at the close of yesterday's action. The Chicago Cubs in the west series are leading Thursday night's action in the standing of the clubs in both leagues, which shows two eastern and two western clubs in the first and second divisions in each.

The recent series between the Yankees and the Tigers at the Yankee Stadium involved not only first place in the American League but intersectional supremacy as well. As a result, the Tigers winning three of the four contests the western clubs were able to return to their homes with a margin of one game over the eastern four on the season's intersectional tally.

The count stood 31 to 30 in the National League the western clubs had an advantage. The Chicago Cubs in the first two intersectional series of the season. The standing up to yesterday was:

West won 59, east won 84.

The National League has the best as well as the position of intersectional supremacy. The Chicago Cubs, who are leading the western clubs with 23 victories and 16 defeats and the Braves holding the uneven honor with 7 victories and 23 defeats.

MARRIAGE LICENSES
Marriage licenses have been recorded in the office of the clerk of the Common Pleas as follows:
Barben Robert Martin and Minnie Susan Bradley, Danville.
Willie Stuard and Emma Waldon, Danville.
Jasper Monroes Terry, Whitsett, N. C., and Mary Maggie Chamber Gihsonville, N. C.
Harvey Richardson and Wyvette M. Hendly, colored, Danville.
Noah Pounds and Dorothy Brandon, colored, Danville.

RUTH LEAVES ALL OTHER SLUGGERS WAY BEHIND IN HOME RUNS—HAS 29 NOW

(By The Associated Press.)
CHICAGO, July 25.—If any one of Babe Ruth's rivals in the American League had any idea of overtaking the Bambino for 1924 home run honors, those particular clouters probably have had a change of heart. His time his 29th homer to the open spaces, Ruth today is so far in the lead that even Ken Williams, of the Browns, has almost given up in desperation. Williams is trailing the home-runners on the wrong side of the ledger.

Ruth, although dropping five points still is the main individual in batting, leading the procession with a average of .379. The Chicago Cubs, remaining second with .365. Goslin of Washington, is batting third with .356 followed by Ty Cobb of the Tigers with .346. Next in the list is Jammison, Cleveland, with .341, while Earl Sheels of the White Sox is sixth with .342. The averages include games of Wednesday.

Jacobson of St. Louis and Harry Hillman, of Detroit, 1923 batting champions, are not far away, but it is a surprise to record that Hillman's percentage at this time of the year is below .330. However, Hillman has been on the hospital list most of this season.

Captain Eddie Collins of the White Sox, has not slowed up on the bases setting a dizzy pace with 26. Other leading batters:
Jacobson, St. Louis, .341; Hillman, Detroit, .325; Meusel, Chicago, .325; Meusel, New York, .325; Collins, Chicago, .325.

Chicago, 324; Sewell, Cleveland, .322; Speaker, Cleveland, .318; Myatt, Cleveland, .318.
Heavy slugging by Leo Hartnett, peppy young catcher of the Chicago Cubs is the outstanding feature among the batters of the National League. While George Kelly of the Giants was gathering six homers in a week, Hartnett collected five. As a result, Hartnett passed the Giants slugger, and is trailing Jack Fournier of the Dodgers, for the home run honors. Hartnett's homers were made in three consecutive days, although not in consecutive games. Twice he made two in one game. His total is 13, which is better by one than Kelly's 12. Fournier, for the home run honors, has made three in three consecutive days, although not in consecutive games. His total is 13, which is better by one than Kelly's 12.

There has been little variance among the batting leaders. Rogers Hornsby, the Cardinal star, is comfortable lodged in first place with .341. His nearest competitor is Zach Wheat of Brooklyn, who is hitting .330, a gain of five points over his mark a week ago. Hornsby, however, gained 116 points.
Max Carey of the Pirates continued to lead the base stealers with a total of 24.
Other leading batters:
Fournier, Brooklyn, .352; Roush, Cincinnati, .341; Sydney, New York, .341; Young, New York, .341; Kelly, New York, .341; Crislieb, Chicago, .333; Frisch, New York, .330; Hartnett, Chicago, .330; Meusel, New York, .325; Collins, Chicago, .325.

GIANTS BADLY BEATEN BY RICKEY'S CARDINALS
(By The Associated Press.)
NEW YORK, July 25.—Sir Walter Raleigh hasn't got anything on John McGraw. The genial leader of the Giants yesterday was thrashed by the leading slugger in true Queen Elizabeth style, the Cardinals embarrassing a 13 to 2 victory on the National League records.
Everybody wiped their feet on the Giants except the Cardinals. The leading slugger in the National League, Hornsby went home without a hit, the only Cardinal to face the quartet of throwers hung at them by McGraw, who failed to connect safely in the big inning slugged by the rival at the Polo Grounds.
McGraw threw his port side, Jack Bentley at the Cardinals in the opening stanza but Jovial Jack lasted only one inning and a third and was yanked in favor of Tony Renda. Renda, also for the cacklers and he retired in favor of Maun who was

America Leads In Power Development

By MILTON BRONNER
LONDON, July 25.—The United States is destined to become the greatest power in the world. This fact was brought out at the World conference on Power, held at the British Empire Exhibition at Wembley.

Engineers—British and American—testified to this destiny. It is true, they said, because:

America has more available hydro-electric power than any other nation in the world.

Hydro-electric power, engineers concede, is the future power. The United States already has developed more than any other nation in the world. And it can develop greater quantities than any other nation in the world.

An Appreciable Surplus
Other nations are reaching the maximum production of coal, oil and hydro-electric power. The United States is the only nation with an appreciable surplus. The United States has enough to sell to almost every nation needing it.

Thus, in a short time, the rest of the world will become economic tributaries to the United States.

Further, this great power resting in the United States will enable America to outstrip other nations in peace time manufacturing. This great amount of power will be an insurmountable handicap to other nations in time of war.

Major E. G. Sir Philip Nash, outstanding British authority, showed that the coal, oil and water supply available in 1920, in terms of millions of kilowatt hours, was divided as follows:

United States	584,000
Great Britain	165,000
Germany	143,000
France	129,000
Italy	10,582
Switzerland	7,513

Of this potential energy, the United States consumed only 8.4 per cent. Great Britain, 3.88 per cent. Germany, 1.65 per cent. Italy, 32.1 per cent. and Switzerland, 36.2 per cent.

Britain Next
Great Britain is the only other industrial nation capable of greatly increasing its electrical output. But even at that, the United States has four times as much power available.

In 1921 the United States produced 41,000 kilowatt hours against 4,900 for Great Britain, 4,800 for Italy and 1,130 for Switzerland.

Besides this great advantage, America has developed super-power. This is a term applied to the system whereby almost all of the power producers are linked together. When one system requires more power it draws upon another. When another has a surplus, it sells to a third. It means that power can be mobilized. It means that waste is

eliminated. It means that the surplus can be disposed of. It also means that coal and oil can be conserved to a greater extent than possible in other countries. It is the lever by which United States can exercise international economic supremacy.

ABOVE—A GIGANTIC AMERICAN POWER DAM BELOW—A COMPARISON BETWEEN THE POWER DEVELOPMENT BY THE UNITED STATES AND OTHER NATIONS IN THE MAJOR GENERAL SIR PHILIP A. M. NASH, EMINENT BRITISH ENGINEER.

The Lutheran church of the Ascension. Sutherland avenue J. W. Link, pastor. Invites you to the following appointments: Sunday school 9:45 a. m. worship hours 11 a. m. and 8 p. m.

DAIRY INSPECTION REVEALS EQUIPMENT AND FINE HERDS

While the number of people going on the dairy inspection trip yesterday afternoon was not as large as had been expected, on account of the wind and rain storm just after noon a goodly number joined the party. Among those making the trip were Mayor Harry Wooding, Prof. C. S. Wheatley, E. H. Hatcher, former dairy inspector A. L. MacDonald of Norfolk, formerly in the dairy business near Danville, C. E. Stahl of Richmond, from the State Dairy and Food Department, Dr. W. C. Christman, city inspector of food meats and dairy products, Dr. R. W. Garrett, C. W. Tinsley, Misses Georgia Wilson and Ethel Keeling of the city health department, James and Bebe The party left from the Municipal Building at 3 o'clock and first went to the dairy of W. D. Haymore, who is located on the Halifax road about three miles from the city. They then proceeded to Wilson Dairy Farm in North Danville. The Tinsley Dairy Farm which is about four miles out on the Franklin turnpike, and S. R. Harper & Sons Dairy which is located on the same road about nine miles from Danville. All of these dairies were found to be in splendid condition, clean and sanitary, and well-equipped with modern machinery. The cows were also in the pink of condition, which insures milk of a superior quality, practically all of the cows in all of the dairies being of the Holstein and Guernsey breed.

The dairy farm of W. D. Haymore is located on the Halifax road about three miles from the city. The dairy barn is one of the latest types of approved construction, well lighted and ventilated, concrete floors, and is equipped with metal stanchions. Mr. Haymore also has a modern milk house, which contains all the necessary equipment to insure the proper handling of the milk, and there is evidence that the products are clean and sanitary. A large storage water tank and an electrically driven pump add to the conveniences of the work. The products are sold to the retail trade. The herd is composed of Guernseys and Holsteins and they are in splendid condition.

The Wilson Dairy Farm is located in North Danville. It also has a modern dairy barn built and equipped in accordance with the best dairy practices, while the facilities for handling the milk are modern and up to date in every respect. Mr. Wilson also has a splendid herd of Holstein and Guernsey cows, that are well-kept and first rate milkers. He sells all of his products to the retail trade in North Danville. In addition to the dairy enterprise, Mr. Wilson has a splendid orchard containing plum, apricot, apple and peach trees, on which are a good crop of fruit. He has a male Holstein that weighs around 1,600 pounds, which he endeavored to persuade Mayor Wooding to ride, but the Mayor declined the honor.

Tinsley Dairy Farm. The Tinsley Dairy Farm, owned by C. W. Tinsley, is located on the Franklin turnpike, about four miles

Altavista

ALTAVISTA, Va., July 25.—Equipment for the new postoffice has been purchased and we are informed by Dr. H. E. Price that the new building will be ready by Sept. 1st.

Born to Mr. and Mrs. Matherly, Tuesday, a boy.

Mrs. Frank Hamner is on the sick list this week.

Miss Ruth Roark is visiting her sister, Mrs. Barksdale, in Charlottesville.

Misses Sadie Ashwell and Willie Mae Preston of Huddleston, were in town Tuesday.

Mrs. W. S. Corbin left Monday for Welch, Va.

Born to Mr. and Mrs. Jesse Cox, Tuesday, a boy.

Noland Gregory left for Jefferson Hospital, to undergo an operation.

Miss Louise Arthur of Bedford is visiting her uncle, Mr. Leo Arthur.

Mr. and Mrs. R. H. Ferguson were visitors in Lynchburg, Monday.

H. H. Street is attending the Apomattox Convention.

Henry Powell was in town Tuesday.

Messrs. C. A. McCutchen and Rennie Robbins returned from camp, Tuesday. They state the boys are having a fine time and enjoying the best of health.

Mr. Albert McCutchen has the honor of being the best fisherman having been able to land a 7½ pound bass which measured 23½ inches in length.

Rev. A. D. Pudezett formerly of the First Baptist church was in town Monday. He left Monday for Richmond and later, later Mrs. Padgett will join him here at which time they will visit many of their old friends.

Mrs. Henry Sarver and sister were in town Tuesday.

DRS. SHELBOURNE AND T. R. SANFORD EXCHANGE PULPITS

Dr. T. Ryland Sanford pastor of the Baptist church of South Boston will preach at the First Baptist church of Danville at the 11 o'clock service next Sunday morning.

Dr. James M. Shelburne pastor of the First Baptist church here will preach at the Baptist church of South Boston at the 11 o'clock service, Sunday morning. This exchange of pulpits was occasioned by Dr. Shelburne going to South Boston to Boston to conduct the funeral services of Gailand Bass.

DR. SENTER TO TEACH CLASS

Rev. S. T. Senter, D. D. pastor of Mount Vernon church will on Sunday morning teach the Philathea class at that church.

ern construction, and are kept particularly clean and sanitary. Mr. Harper has a novel way of keeping his barn free from flies. A large hornet's nest is located a short distance from the barn and the hornets keep the flies killed off. The hornet's nest was not inspected as everyone was satisfied to take Mr. Harper's word with regard to it. He also has the advantage of a natural water supply which comes from a large spring located on the mountain side and brought to the barn by a gravity system. Mr. Harper churns most of his milk and has a 75 gallon churn in the milk house. He is beginning to build up a sweet milk trade and all of his products are sold direct to the consumer. In addition to the dairy business he has a lot of ducks, chickens and turkeys.

Inspection Party Well Pleased

Those who went on the trip were well pleased with the condition of the dairy barns and milk houses, the clean and sanitary way in which the milk is handled and the quality herd of cattle so much in evidence at all of the places visited. The men who milk the cows wear white suits of clothes which come from the laundry fresh and clean for each milking. The cow's udders are thoroughly washed before each milking and the milk is handled in clean, well sterilized vessels that guarantees its delivery to the consumer measuring up to the standard required by the city health department. Dr. Christman also guards the interests of the consumers and the dairymen by taking samples of the milk from the trucks at different times and at different places, so that it is practically impossible for any impure milk to be distributed in Danville. Mr. Tinsley took a crate of fresh sweet milk and let the members of the inspection party see for themselves what kind of goods he is producing. Mr. Harper had a supply of cake and peach and strawberry ice cream that was served in his dairy barn, which is evidence of good clean milk was evidence of good clean milk.

When the party was ready to return to the city Mayor Wooding signified his intention to take up with the city health department to conduct these inspections once every month.

S. R. Harper and Sons

The dairy farm of Mr. Harper is located about nine miles from Danville on the Franklin turnpike. Just on the other side of White Oak mountain it is ideally situated, and has about fifty acres of splendid pasture land on the place. The dairy barn and milk house are also of modern

construction, and are kept particularly clean and sanitary. Mr. Harper has a novel way of keeping his barn free from flies. A large hornet's nest is located a short distance from the barn and the hornets keep the flies killed off. She Posed as Man For Years

"WALTER" BUNDY

MARSHALLTOWN, Ia., July 25.—Ruth Bundy successfully masqueraded as a man for seven years. She did a man's work with railroad section gangs and as a farmhand. As Walter Bundy she married Elizabeth West at Newton, Ia. three years ago.

And none save "his" mother and own family—not even "his" father—knew until the other day that "Walter" Bundy was a woman.

The section men with whom "he" worked say he always did his

share without complaint. And "his" voice, though rather high pitched, really had a masculine ring to it.

Even a physician who attended him during a long illness never suspected "his" sex.

The truth came out only after a quarrel with "his" brother-in-law. The brother-in-law swore out a warrant for "Walter's" arrest charging "he" had threatened to kill.

I Jail Ruth admitted she always had disliked feminine attire. As a little girl at East Alton, Ill., she

tumbled around in overalls most of the time.

When she was 17 she married Frank Arnold at Steelville, Mo. He obtained a divorce in Iowa. Since then she has had no knowledge of his whereabouts, she says.

After hearing her story, Municipal Judge B. O. Tankersley dismissed the charges against her when she promised to go back to southern Illinois, near St. Louis, with relatives.

But Ruth still wore her male garb. And she declared she intended to keep it on.

"I never did like women's clothes," she said.

DOUBLE KILLING

(By The Associated Press)
WATERVLIET, N. Y., July 25.—Leroy Adams today shot and killed his wife and then committed suicide. A divorce action brought by Mrs. Adams was to have come up today.

at the very special price—**\$45**

Other sizes in Bigelow-Hartford Axminster Rugs

In addition to the Room-Size Rug we offer a complete range of sizes and patterns in the same high grade Axminster, at correspondingly low prices.

27-inch x 60-inch	\$ 6.00	8-ft. 3-in. x 10-ft. 6-in.	\$ 42.50
36-inch x 72-inch	\$ 9.50	9-ft. x 15-ft.	\$ 75.00
4-ft. 6-in. x 6-ft. 6-in.	\$ 14.50	10-ft. 6-in. x 13-ft. 6-in.	\$ 85.00
6-ft. 9-in. x 9-ft.	\$ 29.50	11-ft. 3-in. x 12-ft.	\$ 70.00
7-ft. 6-in. x 9-ft.	\$ 32.50	11-ft. 3-in. x 15-ft.	\$ 90.00

Creating a home means more than merely assembling the necessary furnishings for the several rooms. Those furnishings must be lived with day after day, year-in, year-out—and they should be chosen with an eye to an harmonious whole, to worthy quality, to enduring charm. Particularly is care essential in the selection of Rugs—the background, the "setting", of the room.

The great Annual August Sale of Rugs always is an outstanding event. It presents finest qualities, as a matter of course. But this year it goes a great deal further: It offers varieties, quantities and values such as not even the Miller & Rhoads facilities for handling tremendous quantities have enabled us to present heretofore. We endorse this as an event meriting your earnest consideration.

If you cannot get what you want locally, try **MILLER & RHOADS**

FUNERAL OF BISHOP

HAID NEXT TUESDAY

(By The Associated Press.) CHARLOTTE, N. C., July 25.—The body of Right Rev. Leo Haid, O. S. B., dean of the Catholic hierarchy in America, bishop of the vicariate apostolic of North Carolina and since 1885 abbot of Belmont Abbey and president of Belmont College, who died early last night, was removed in solemn procession at 6 o'clock this evening from the abbey to the church nearby, where it will lie in state until Tuesday morning, when the funeral service will be held.

Rev. Abbot Charles Mehr, O. S. B., of St. Leo's Abbey, St. Leo, Fla., will be the celebrant at the pontifical requiem mass Tuesday morning. Interment in the Abbey cemetery will follow.

In addition to churchmen of high rank from many parts of the country, hundreds of laymen from all over the Carolinas are expected to witness the funeral rites.

Where big crops bring independence and life is worth living, convenient shops, markets, agricultural school, amusements; dark loamy fields, valuable timber, 200 apples, plums, cherries, peaches; shaded dwelling with wonderful views, poultry house, etc. Urgent business elsewhere: horse, cow, calf, poultry, implements, potatoes, beans, oats, etc. thrown in, all for \$800, part cash. E. F. Cole, Stuart, Va. 24b-thusat

NEW YORK LIKES ORANGES WASHINGTON, July 26.—The citrus fruit supply of the country after deduction of exports, was enough to allow 21.3 pounds of oranges, 6.5 pounds of grape fruit and 3.7 pounds of lemons for the consumption of each person in the United States last year, the Department of Agriculture estimates.

There was a total supply of 34,833,000 boxes of oranges, 8,168,000 boxes of grape fruit and 600,000 boxes of lemons, but exports amounted to 2,284,000 boxes of oranges, 281,000 boxes of grape fruit and 182,000 boxes of lemons. Official statistics place New York City's consumption of oranges at 6 pounds per capita annually.

SPECIAL STAMPS FOR ZR-3. FRIEDRICHSHAVEN, Germany. July 26.—European stamp collectors receive a thrill recently with the announcement that the dirigible ZR-3, which is expected to make the flight to Lakehurst, N. J., this fall, will carry a certain amount of mail for which special stamps will be provided. Letters and post cards may be sent to any address in the United States, South and Central America and Canada, the letters at one gold mark (24 cents) for 20 grams, and 50 pennings for post-cards.

Of nearly 900,000 motorcycles in the world, there are only 200,000 in this country.

Tree grown on the northern side of a hill make for durable timber, than those grown on the south side.

Tobacconists Take Second Straight From High Point

HERB MURPHY CONTINUES TO LEAD TEAM IN BATTING

Herb Murphy, although not playing regularly now, is still leading the team in batting, according to averages which include games only through last Saturday. His figure is .337. McDonald is hitting second with an average of .293. High Point leads the league in team batting with an average of .266. Danville is hitting in fourth place and at the bottom on team fielding, the club is making a good showing in remaining in third place in the league standing. Only two and a half games behind Durham in second place. The statistics through last Saturday's games follow:

TEAM BATTING				
	G	AB	H	Pct.
High Point	75	2,311	629	.318
Durham	72	2,395	665	.279

Stand Back, Fellows!

LUIS FIRPO

This is the latest picture of Luis Firpo, celebrated Wild Bull of the Pampas, who has just returned to America to do battle with Harry Wills, the giant negro, next month. The picture was taken a few moments after the Bull's liner docked. You will observe that he is still a hard-looking guy.

NATIONAL

JACOBS WORSE THAN JIMMY RING AND CUBS LOSE

(By The Associated Press.)

PHILADELPHIA, July 25.—The Chicago Cubs lost the first game of their eastward swing to Philadelphia today 10 to 4. Both Jacobs and Ring were wild and battered hard, but the local hurler tightened in the closing innings while Jacobs was pounded for extra base blows that accounted for seven tallies. Umpire Moran cleaned the Cub bench in the third inning after a dispute on balls and strikes.

Score: R H E

Chicago.....012 100 000-4 9 0
Phila.....130 100 244-10 11 1
Jacobs and Hartnett; Ring and Wilson.

FOUR GIANT PITCHERS UNABLE TO STOP CARDS

NEW YORK, July 25.—St. Louis Nationals hit the ball hard today and opened their five game series with New York with a 13 to 5 victory. Frisch and Jackson both hit home runs. Every St. Louis player made at least one hit with the exception of the league's batting champion.

Western Amateur Golf Final Today

(By The Associated Press.)

CHICAGO, July 25.—Harrison R. Johnston, of St. Paul, four times Minnesota champion, and Albert Seckel, of Chicago, western champion in 1911, will battle over the Hinsdale golf links tomorrow for the western amateur golf championship as they meet in the final round of the tournament. Johnston, who has won the title in 1911, 1912, 1913 and 1914, is the defending champion. Seckel, who has won the title in 1915, 1916, 1917 and 1918, is the challenger.

While Johnston had a lead nearly all day, Mudge squared the match at the ninth hole and had a lead of one hole at the twelfth, only to lose it by dropping the 13th and 14th and losing the match to Johnston.

Manion hit his stride in the first half of the afternoon round, however, and was again two up.

SWANSON TO ASSIST IN ORGANIZATION

(By The Associated Press.)

WASHINGTON, July 25.—Reorganization of the national Democratic senatorial committee was completed today. The selection of the six senators who will assist Senator Jones of New Mexico, as chairman. Those designated were Senators Swanson, Virginia; Gerry, Rhode Island; Kendrick, Wyoming; Edwards, New Jersey; Bayard, Delaware; and McKellar, Tennessee.

Those designated were Senators Swanson, Virginia; Gerry, Rhode Island; Kendrick, Wyoming; Edwards, New Jersey; Bayard, Delaware; and McKellar, Tennessee.

FORTY FOOT YACHT IS CROSSING THE ATLANTIC

(By The Associated Press.)

NEW YORK, July 25.—The forty foot yacht, Leif Erickson, which with four men aboard is following to Norway the route taken by the world's first Viking ship, has arrived today at a cablegram received today by the newspaper Norekspost.

The yacht will proceed to Greenland, hence to Labrador and then down the Atlantic coast to New York where it is expected late in September.

BRITISH SQUADRON PASSES THROUGH PANAMA CANAL

(By The Associated Press.)

PANAMA, July 25.—The British battleship squadron left today for Jamaica. No official ceremony was held here by the ship's officers. The only formality was the exchange of salutes and the dipping of flags.

IN THE LAST 10 YEARS THE AMERICAN PUBLIC INVESTED OVER \$17,000,000,000 FOR MOTOR VEHICLES

(By The Associated Press.)

NEW YORK, July 25.—The American public invested over \$17,000,000,000 for motor vehicles in the last 10 years, according to a report issued today by the Federal Reserve Board.

WILSON'S FINE HURLING AND HEFTY SWATTING IS FACTOR-RESCO'S HOMER

(By The Associated Press.)

HIGH POINT, July 24.—The Danville Tobacconists, with "Lefty" Wilson on the hill in superb form, took the second straight game from the Pointers here this afternoon by a score of five to one, the lone Pointer run came in the seventh inning after one was out.

George Resco had another perfect day at bat, being hit twice, getting a single and his fourteenth home run of the season and his third of the week, and scoring two runs.

Rube Eldridge was touched for seven hits which came at opportune moments and Wilson gave up only five and kept them scattered.

The scoring started in the first half of the third inning when the Tobacconists pushed across three runs more than enough to win, when McDonald singled into right, Resco came through with a similar blow and McDonald went to third, Regan lifted a sacrifice fly and McDonald counted; Cochlin walked, presumably to get to Wilson, who laid out our double and Resco and Cochlin crossed the pan.

In the fourth, Resco, first up, hit the ball over the fence.

Danville's final run came in the sixth when McDonald got a life at first base on Allison's error. Resco was hit by a pitched ball, Regan and Cochlin were out and then Bill Ernst came through with a single and McDonald scored.

High Point's only run came in the seventh when after one was down Al-fison doubled into rightfield and Schmidt scored him by looping another two times into the same territory.

PATRIOTS TAKE SECOND STRAIGHT FROM CAPITAL

(By The Associated Press.)

GREENSBORO, July 25.—The local jumped on Garrison for twelve hits and seven runs in the first three and one-third innings here today and defeated the Raleigh Capitals seven to two in the second straight game of the series. Firth who came to the relief of Garrison in the fourth frame didn't allow a hit for the remainder of the game and only three Greensboro players reached first base, all on bases on balls.

J. Harris got off to a bad start and had a run scored off him in the first and the third innings but after that settled down and held the opposition at bay for the balance of the route.

Dave Harris hit his fourteenth home run of the season and his fourth of the week in the third inning with Cochlinase.

Two games will be played tomorrow, the first starting at 2:30. The doubleheader was postponed today because of the wet grounds.

Second baseman Dean, of Raleigh, has been suspended and Clem Moore, a resident of Greensboro, at Raleigh, this season with the Twins, has been signed. The box score follows:

Raleigh: AB R H PO A E

Mr. Taxpayer, You Can Smile at This

(By Pacific & Atlantic)

If the palm of your right hand itches, that's a sign that you are about to collect some money. According to that ancient superstition, there should be an epidemic of itching palms, for your Uncle Samuel is preparing to give Mr. Taxpayer something that's coming to him. This industrious group, B. M. Day, Frank K. Bowers, collector of internal revenue; Miss S. M. Englander, Charles Haug (seated, left to right) and E. J. Goin are engaged in the pleasant task of mailing out checks in New York to those who paid income tax in full March 15, and are entitled to 25 per cent. refund.

No Arguments on This Baseball Team

(By Pacific & Atlantic)

Nobody gets sore on this team, because it's all in fun and all in the family. Meet the Holloway brothers, nine of 'em, with Dad Holloway on the right, the manager. They play for Andersonville, Ga. Whenever they win pa gives them each a watermelon. Or do you suppose they're just posing with them?

Vain Attempt

(By Pacific & Atlantic)

In heroic attempt to save Elaine Griffiths (above) from drowning in Hudson river at Stony Point, N. Y., Stanley De Anoy, schoolmate, was carried under with her.

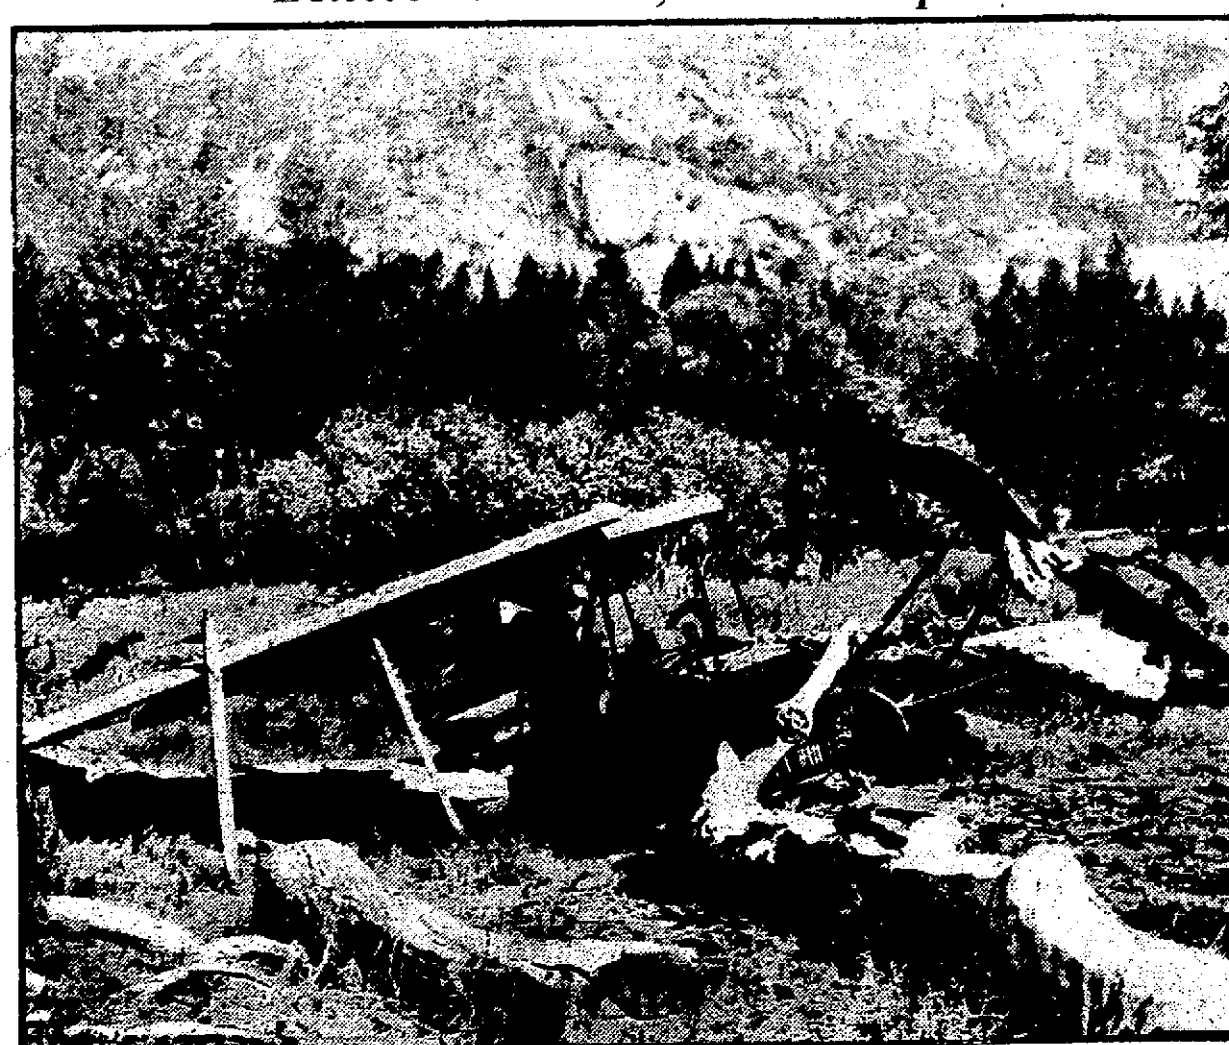

Going Abroad

(By Pacific & Atlantic)

William J. Lahey, chief police inspector of New York, as he sailed for abroad, where he will visit Scotland Yard and the Paris Prefecture, with object of observing latest developments in European police methods.

Believe It or Not, Pilot Escaped

Attempt of commercial aviator to fly in narrow confines of Yosemite valley resulted in this wreck when wind current tipped plane. Flyer escaped injury.

Nipponese Protest Exclusion Law

(By Pacific & Atlantic)

Japanese demonstrations like this in protest against Japanese exclusion clause in new American immigration bill reached height of fury on July 1, when law went into effect. This is one of the gangs that invaded American section in Tokyo, causing much trouble.

Hylan and Hearst Vacationing

(By Pacific & Atlantic)

These two dashing, daring broncho busters are none other than William R. Hearst (left), millionaire publisher of New York, and Mayor John F. Hylan of New York, who are vacationing at Mr. Hearst's California ranch.

Olympic Champ to Wed Coach

Don't Rock the Ship

Up at Lake Hopatcong, N. J., sail-equipped canoes are getting to be in vogue. Unless you are an expert swimmer we shouldn't advise you to try this sport.

London Style

(By Pacific & Atlantic)

This charming summer costume, very popular with the fair sex in London, was seen at the recent regatta at Henley, England.

Miss Betty Becker, Olympic champion swimmer, and Ronald (Pat) O'Reilly, swimming coach, of Atlantic City, N. J., plan marriage after her return.

Roof Struck by Lightning Collapses

The roof of the Clark college building at Worcester, Mass., gave way before force of terrific wind storm. The roof is believed to have been struck by lightning shortly before the collapse. Only a few minor injuries were suffered.

Testing to Find the Perfect Radio Voice

(By Pacific & Atlantic)

WNYC, New York City's new municipal radio station is searching for the perfect broadcasting voice. Herman Neuman (right), director of studio, is shown testing the voice of Margaret Townsend, while others wait their turn.

Engaged

Shirley Mason (above), film star, recently announced her engagement to Harlan Fangler, racing driver. The young couple confirmed the report in Los Angeles, Cal., but have not set the date for the nuptials.

Voyager

Jo Davidson (above), famous sculptor, the picture of ease, leaned against the rail of the liner Paris as he sailed from New York the other day. Wonder if he was thinking of Paris holiday?

Boy's Slayers Dare Death Sentence

(By Pacific & Atlantic)
In surprise move slayers of Robert Franks, son of Chicago millionaire, pleaded guilty to murder in Chicago court. The slain boy's father, Jacob Franks, is one of the principal witnesses. (Left to right) Attorney Bachrach, Leopold, Balfour and Loeb

Movie Star Wants Husband Under Bond

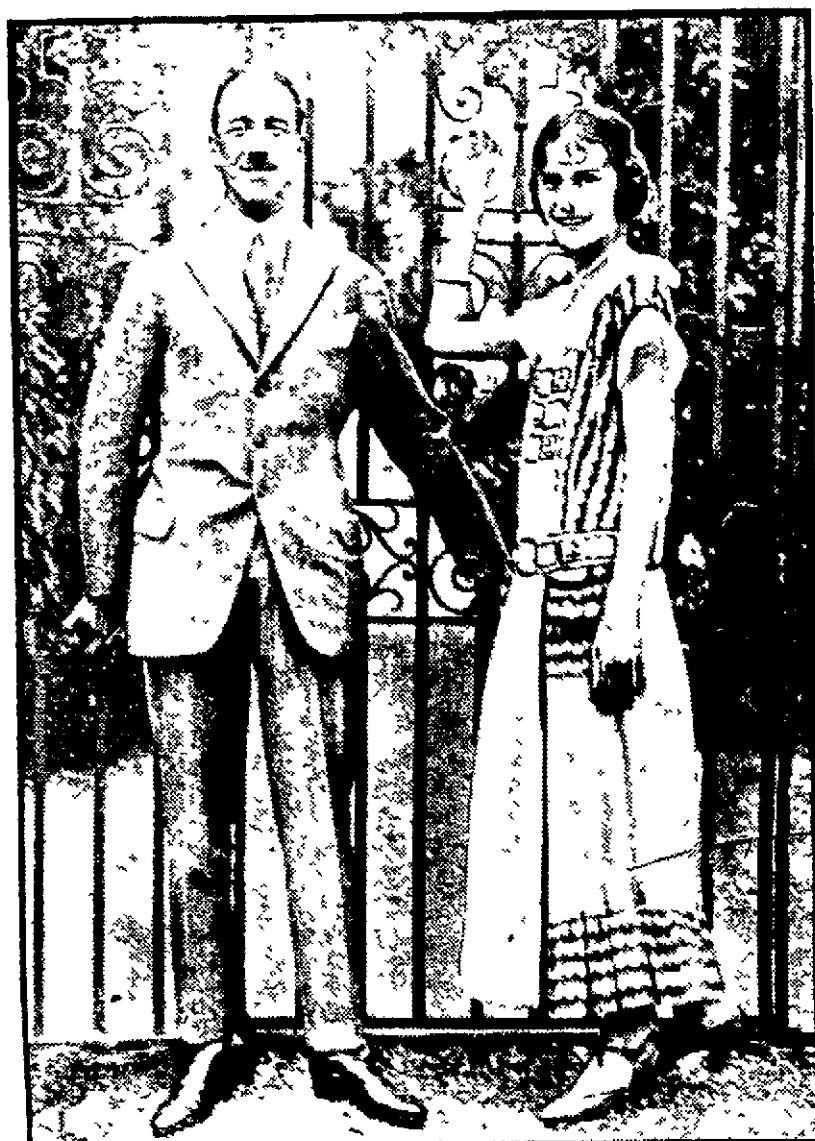

(By Pacific & Atlantic)
After Alexander Pantages and Ben Rosenberg were beaten by John C. Howard, husband of Ora Carew, movie star, in Hollywood, Cal., she asked that husband be placed under peace bond. (Left to right) Ora, District Attorney Keyes and Evelyn, her sister.

Speaks Not

Maharani of Jind, who arrived in New York on the Leviathan, is not allowed to speak without her husband's permission.

Another Titled Romance

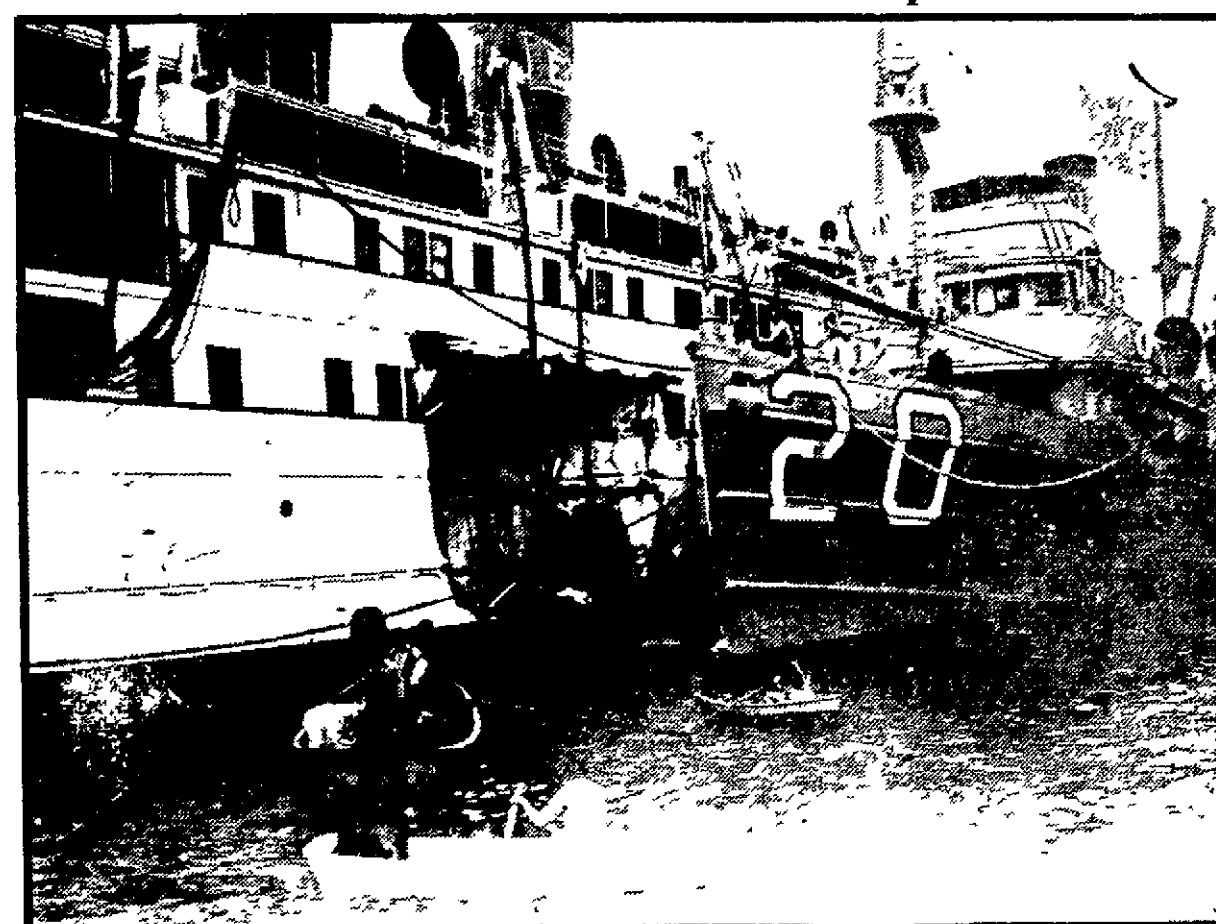

(By Pacific & Atlantic)
Earl of Galloway and Miss Philippa Wendell of New York have announced their engagement. Couple (above) at home of bride's mother in England.

Stranger Than Fiction

(By Pacific & Atlantic)
After Mr. and Mrs. W. H. Hinton of Atlanta buried boy killed in train wreck who they thought was son, real son, John, appeared in scene. A happy group they made.

Four Persons Killed in Steamship Crash

Brutal

(By Pacific & Atlantic)
More than 600 lives were endangered when the steamship Boston, plying between New York and Boston, was rammed by a tanker off Point Judith, R. I. Great hole smashed in the Boston amidship on port side is shown above.

Like Father, Like Son

(By Pacific & Atlantic)
Steve Donoghue, noted American jockey, and son, Patrick, who recently made his bow as jockey, riding in the same race with his dad at Salisbury, England. Here they are shown in the paddock just before they mounted.

J. D.'s Double

(By Pacific & Atlantic)
Not only is John Locke (above), Los Angeles, Cal., waiter, a splendid double to John D. Rockefeller, but he also buys the gas monarch's second-hand wigs and wears them. Locke is shown wearing one of J. D.'s headpieces.

Salt Sea Swimming Easy

(By Pacific & Atlantic)
Salt density of Great Salt lake in Utah makes swimming comparatively easy, as can plainly be seen in the above photo showing Miss Afton Carpenter and Gilbert Sheets of Salt Lake enjoying themselves without fear of drowning.

Prettiest

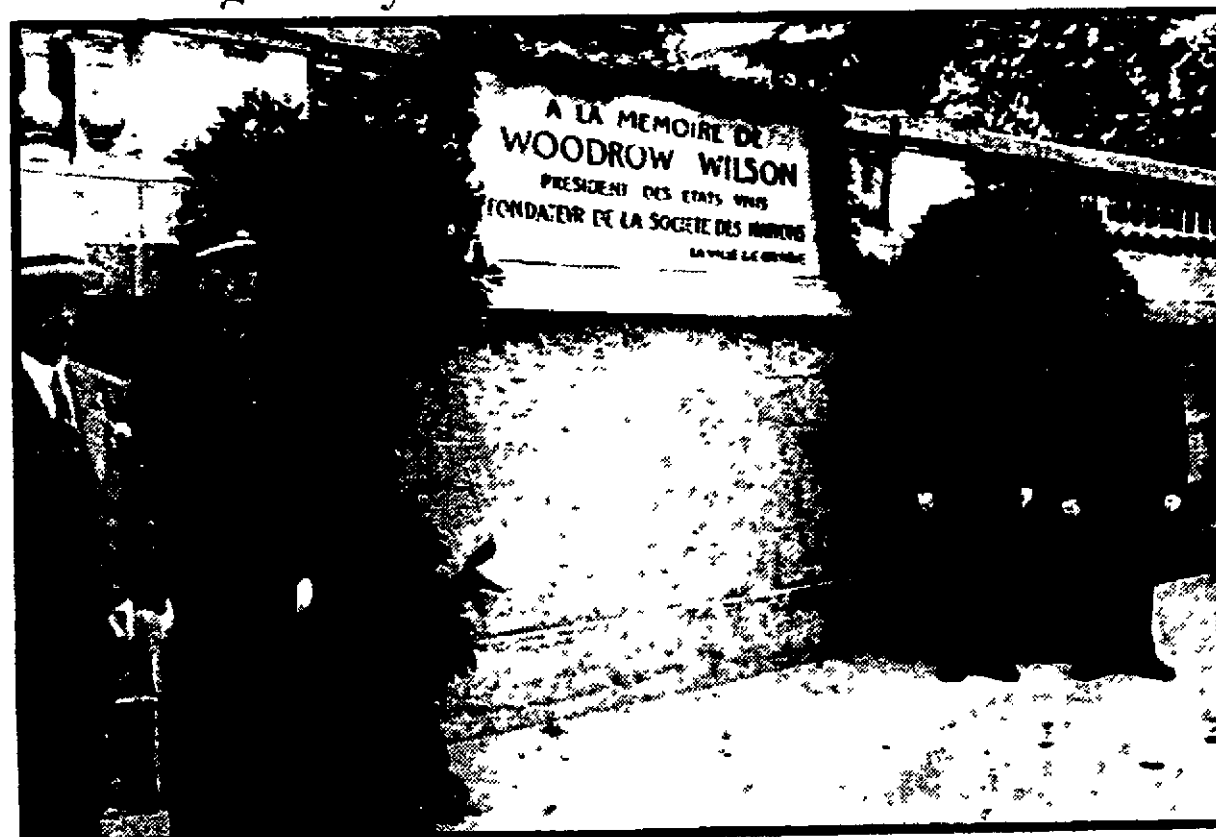

When Senorita Maria-Louisa Canovas (above) was presented at Spanish court function, Queen of Italy said she was the prettiest girl she had ever seen.

(By Pacific & Atlantic)
A childish desire to play as other children do, in opposition to the wishes of her foster parents, Charlotte Krali, Chicago girl, was pinioned hand and foot in dark closet in this manner, she told police.

League Pays Tribute to Woodrow Wilson

In memory of Woodrow Wilson, founder of the League of Nations, this placard was placed on wall of League of Nations palace at Geneva.

Forest Fire's Path

Raging Idaho forest fire destroyed Natchez, near Kellogg. In night and smoke relief workers fought to save miners. Many were made homeless.

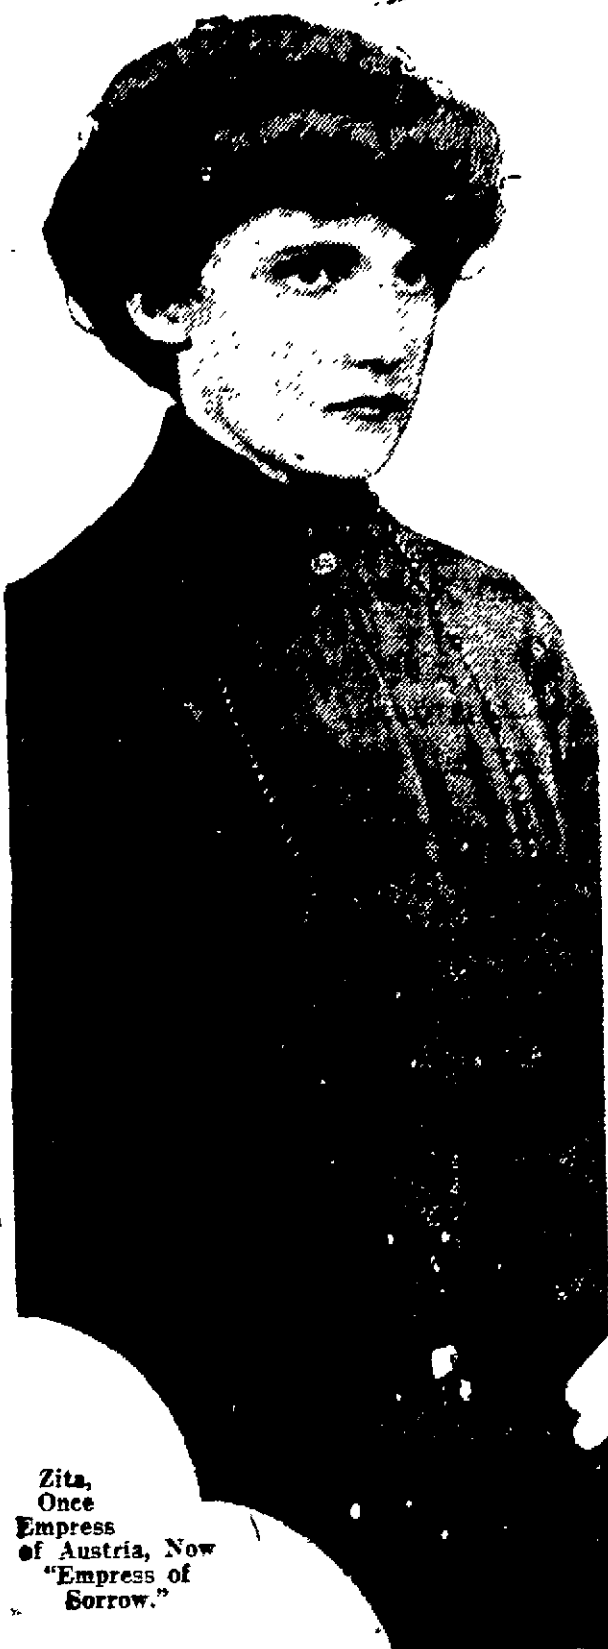

Kiddies Greet World Flyers

(By Pacific & Atlantic)
These children, members of the American colony in Paris, were among the first to spy the American world flyers as they neared the landing field in Paris.

Strange Triangle of the Ex-Queen, the Countess and the "Curse of Doom"

How Unhappy Zita, Hounded by Fate, May Be Saved by the Same Noble Family That Swore Eternal Hatred Against the Ancient Hapsburg Dynasty.

Zita, Once Empress of Austria, Now "Empress of Sorrow."

Beautiful Countess Karolyi, Reported to Have Offered Sanctuary to Zita. (New Photograph Taken with Her Little Son, Paul.) (C) Kerston.

On the Island of Lacroma Off the Coast of Syracuse Is the Villa the Countess Saved Out of the Smash-Up of the Karolyi Fortune.

ZITA, the "queen without a country," at last has been offered a home for herself and her penniless children in a villa on the remote island of Lacroma in the Mediterranean Sea.

This report, reaching Paris via a dispatch from Rome, has astounded Europe. For, if it is true, the owner of the villa is none other than the beautiful Countess Karolyi, whose family is the traditional foe of the Hapsburgs!

European diplomats, whose countries have refused to admit Zita into their borders, see in the reported offer of Countess Karolyi an amazing triangle of hatred and bitterness about to be "squared" by pity and love.

On one side of the triangle are Zita and her children, last miserable survivors of the once splendid Hapsburg dynasty.

On the other side of the triangle is Countess Karolyi, wife of Count Michael Karolyi, former president of the Hungarian National Council, herself a victim of poverty wrought by the World War.

The third side of the triangle is the famous Karolyi "curse of doom," hurled against the Hapsburgs in 1848 by another Countess Karolyi, grandmother of the present count, when her son was murdered by order of the old Emperor Franz Joseph.

Has Countess Karolyi really offered protection to Queen Zita? Will Zita accept charity from the hand so long turned against the Hapsburgs? Is the "curse of doom" about to be wiped out in the compassion of one woman for another? These are the questions Europe asks.

What Countess Karolyi has is little enough. Yet compared with the possessions of the "Woman of Sorrows," as Zita is known these days, it seems the wealth of the world. Victimized by treachery and theft, hounded from place to place by worried politicians who see in her presence nothing but a menace to civil tranquility, the widow of the last of the Hapsburgs finally has become a perpetual traveler with neither friends nor refuge, suspected and shunned and feared by all.

It was when the Countess realized these conditions, according to the dispatch from Rome, that she broke the haughty silence which has stood like a wall between the houses of Karolyi and Hapsburg for nearly a century and performed the gesture which, it is expected, will draw "rings" of the curse.

"My poverty is like a weight which bows my head," is the message, in effect, she is said to have sent to the wandering ex-queen. "My bread is savored with want and the sea wind stings like a lash upon limbs thinly clad.

"So out of my misery I am offering you a half of what I have. My poor home shall be your sanctuary. Your children shall play in my patch of garden and your heart shall be warmed at my hearth.

"If you choose to come to Lacroma you will be very welcome. In such a remote and futile corner of the world there will be none to question the good faith of Zita, the queen, and the harried spirit of Zita, the woman, may find rest."

The young Countess Karolyi is no less beautiful, regal and passionately in earnest in her apparent determination to exorcise the terrific curse than was the Countess of several generations back who called upon heaven and hell to avenge the death of her young son, a leader of the Hungarian rebellion, who had surrendered under promise of treatment as a prisoner of war and who had been ruthlessly executed with other Hungarian patriots taken under similar conditions.

The Countess of that other day, a devoted patriot, made her way through the guards and stood before the emperor, the handsome young Franz Joseph of 1848, assured, arrogant, heady with power. Raising her hands aloft she pronounced his doom:

"May heaven and hell blast his happiness! May his family be exterminated! May he be smitten in the persons of those he loves! May his life be wrecked and may his children be brought to ruin!"

How well destiny conspired with the outraged mother's heart to fulfill the curse is well known to all who have followed the fascinating chronicles of the house of Hapsburg.

Franz Joseph lived to see his wife and only son murdered after lives of estrangement, his nephew and destined successor assassinated, and other members of his family even to remote connections killed by violence or by their own hands and the power he had built up dissipated and destroyed.

Eighteen tragedies followed one another in the Hapsburg family, while Europe wagged its head over each and muttered.

And then came the tragedy most of all far-reaching in its effects, the taking off of Archduke Francis Ferdinand in

June, 1914, by that tool of fate, the Serbian assassin—and the precipitation of the Great War. The old emperor died before the government was disrupted by the Hungarian National Council, headed by Count Karolyi, grandson of the woman who had laid the curse!

But the Hapsburg curse did not die with the man who evoked it. It stayed to hang above the young Emperor Karl when he ascended the throne of the dual empire, and to wrap his beautiful young wife in shadow.

The exiled nobles of the tarnished drawing rooms saw the malediction, like a black fury, pursuing the royal pair as they fled from the Castle of Ekartsan on the Danube when they retired to Switzerland after the proclamation of November, 1919, which created a republic of Austria-Hungary. They saw it following them to the little island of Madeira off the Spanish coast where they sought sanctuary and peace, but where they found such poverty as not many of the peasants of their own land had known in the old days of the Hapsburg glory. But for the charity of their humble neighbors on the island there would have been no food in the tumble-down house where they lived. With only strife and heart-break behind them and no hope

Count Karolyi, Traditional Foe of Zita and Her House.

before, Karl became disconsolate and began to age.

It was pneumonia that killed him in the end—but Europe called it "the curse." Thus passed the last of the line which had given kings to Hungary and Bohemia for more than thirteen hundred years!

Zita took up the burden of life as best she could. After the birth of her daughter, she set about the task of selling her one souvenir of glory, the great Florentine diamond, all that was left to her of the fabulously valuable crown jewels which she and her husband had carried into exile. They had lost the others to swindlers in Switzerland—one more sorrow in their train of sorrows.

The Florentine, a great pink stone weighing more than a hundred and thirty-nine carats, scarcely had been placed upon the market when the attention of the Italian Government was attracted and official protest went forth.

Italy claimed the stone. The beautiful Signorina Simonetta Medici, who claims lineage descent from the famous old Italian house, declared that the stone had been the property of her family for centuries—and offered to prove it.

It had been carried into Austria and the Hapsburgs had obtained possession of it through war fare and robbery, she maintained. And the Italian Government seemed so willing to believe her story that official notice was served upon the wretched mother of seven hungry children that she must not dispose of this last of her possessions without the consent of that august body.

It was about this time that every community invaded by the one-time queen became suddenly but undeniably inhospitable. Each land she visited treated her with perfunctory kindness—and intimated that it would be entirely agreeable to the government if she would find it convenient not to remain too long!

Travel worn and sick at heart, despairing of ever finding rest, Zita began to feel that if Nemesis of her husband's house would be satisfied with no sacrifice less than the lives of her self and her children. But now comes the offer of kindness from the daughter of the house of her enemies—Countess Karolyi.

"Will Zita accept? Will the women who inherit enmity at the marriage altar unite and against their common plight—and bring each other good at last?"

This is the question the exiled nobility of Europe is asking itself. And it adds, in whisper: "And is the curse of the Hapsburgs to be laid at last?"

Four of Zita's Seven Fatherless and Penniless Children—Left to Right: Archduchess Adelheid; Archduke Carl Ludwig; Archduke Otto, the Ex-Crown Prince; and Archduke Robert.

Talking Honey

By G. L. FURCHSON

(No. 17)

In ancient times, honey, being the only sweet then known was used in every kind of cookery and confection. With the invention of cane sugar, sorghum and other cane products, the use of honey in cookery diminished materially, not only because of the higher price of honey in comparison, but also because of the greater convenience of the powered sweet. During the war with sugar almost unobtainable, honey became the popular substitute and was again extensively used in cooking. Due to a lack of knowledge of the best way of using honey, and its limitations in cookery, when sugar again became plentiful there was almost an immediate turn to the better known sweetening.

Honey is not a satisfactory sweetening for many kinds of cookery. But many foods, likewise can be made more delicious with the use of honey than with sugar. It is fine for use with the more tart fruit, but should never be used with those which are never, or naturally sweet. Nothing is finer for grape fruit than a liberal helping of honey. Oranges and peaches, cranberries and loganberries sweetened with honey are delicious. Rhubarb and gooseberries are much improved by being sweetened with honey. Honey makes the finest taffy and there's nothing richer than a "honey sundae" at a soda fountain. Many kinds of cakes and cookies are much improved by using honey instead of sugar. In my next talk I will give a few standard recipes for honey cookery.

NEW YORK BONDS.

(By The Associated Press)

NEW YORK, July 26.—Spurred trade marked the bond market today. Several large blocks of public utility bonds turned over at higher prices. On reports that the public service corporation of New Jersey proposed to sell \$20,000,000 six per cent debentures to retire bonds bearing higher interest, the company's first advance of 2-1/4 points on a block sale of \$250,000. Brooklyn Union Gas seven of 1929 moved up a point and similar gains were recorded by Eastern Cuba 7-1/2's and American Agricultural Chemical 7-1/2's. Sugar advances included Erie Convertible four, "A" Chicago and Alton 3-1/2's, Chesapeake and Ohio Convertible 5's, Seaboard Refunding Four, American Sugar Sixes and Punta Alegre sevens.

NEW YORK STOCKS.

(By The Associated Press)

NEW YORK, July 26.—Week-end profit taking interrupted the upward movement of prices in today's market, giving opening quotations an irregular appearance. New 1924 highs were reestablished in the first fifteen minutes of trading by Kinney Company up three points and Consolidated Gas and Sears Roebuck, which improved fractionally. Rails were mixed, Rock Island seven per cent preferred dropping a point.

The main price movement continued upward with good buying power developing in sugar, merchandising and public utility issues. Additional new highs were recorded by Brooklyn Union Gas, Montgomery Ward, Associated Dry Goods, General Electric, Kennecott Copper and Public Service of New Jersey eight per cent, preferred the rains ranging from fractions to four points. Other strong spots were Rock Island common, American Sugar Refining, Southern, American Sugar, Cuban Dominican sugar, Rock Island, Utah Copper and United States Steel Iron Pipe up one to three points. American Water Works dropped 2-1/4 points and Delaware and Hudson one. Foreign exchanges opened firm.

HUNT'S DAILY LETTER

By HARRY B. HUNT

WASHINGTON, July 26.—The capitol is a brighter place, now that Congress is gone.

For when the senators and congressmen left they were followed by a soap-and-water brigade that has been giving the big building "on the Hill" the most thorough renovating it has had in years.

All the blood spilled in the radical raids that forced the rules in the House and blocked the Mellon tax bill has been mopped up, all the mudges and spears resulting from the oil scandal have been scrubbed away.

"Congress" has been so constantly in session the past several years we haven't had a chance to give the building the overhauling it has needed, they tell you down at the office of Dave Linn. This year, when we have had several months' time, it did not give us the money to do all that ought to be done but we're doing the best we can.

Over in the House wing, the many colored mosaic tiling, made 70 years ago at Trent-on-Tyne, England and worn thin by the pacing feet of three generations of restless statesmen, is being replaced by a more sedate and dignified black and white marble flooring.

The white marble is an American product but the Black is imported from Belgium.

The most striking change the renovation has brought about to date, however, has resulted in the cleaning given the great historical paintings that adorn the walls of the capitol rotunda.

Personages of fame in American history whose countenances have been dimmed by the dust of time have emerged from the duskiness that has enshrouded them for years and stand forth again fresh and vigorous as in the flesh.

Pocahontas' her face scrubbed clean is seen at her baptism. DeSoto is seen discovering a Mississippi river that no longer is muddy under its burden of dust, but is revealed now as a liquid if not a sparkling rippling river.

General Burgoyne, in surrendering to General Washington, passes over a sword that is newly scoured and shining.

And the "Fahars," engaged in signing the Declaration of Independence, all look as though their frilled shirts and knee breeches had just come from the dry cleaners.

Those are the flour pictures that so far have been "restored." The capitol's art experts are now working on the Landing of John Smith at James town.

When that is done there will remain the Embarkation of the Philgrims, The Surrender of Lord Cornwallis, and Washington Resigning Command of the Continental Army.

The cleaning of these masterpieces of historical art will take it is estimated, at least another two months. Maybe three. It is exacting work, requiring the utmost pains to avoid marring the units and texture of the paintings.

Some fine paintings are dusted, to remove surface accumulation of loose dirt. Then they are washed in a solution that removes the grime.

After this they are "cleaned" by a solution, applied carefully, which removes the dirt and grime that have become embedded, but which is not permitted to penetrate to the color pigments beneath.

The result has been to bring out a beauty and color in the pictures which have been altogether lost to visitors at the capitol through the last score of years.

The big paintings underneath the dome, however, will not be cleaned. It would cost "too much" to build the necessary scaffolding.

TICKER TALK

Thomson & McKinnon

NEW YORK, July 26.—J. P. Morgan, sailing for Europe, declares he will place his counsel on contemplated German loan at disposal of allied governments but purely in banking matters and without any connection and policies.

American Bank Note six months ended June 30th net equal to \$1.33 a share on common against \$1.31 first half of 1923.

New York, Ontario & Western June net \$110,374 against \$172,235. Six months \$2,084,000 against deficit of \$50,588 first half of 1923.

New York Central, including Ohio Central lines, June net, \$25,741 against \$461,560 in June, 1923. Six months \$50,53,000 against \$39,548,000.

Erie System June net \$594,295 against \$1,547,664 in June, 1923. Six months \$1,168,594 against \$7,972,719.

Youngman Sheet & Tube will increase finishing mill operations next week adding a tube mill and increasing sheet mill schedule to about 100,000. Rod and merchant bar mills will be idle but chances re-entrant net gain in operations.

Harvey in Western Canada's wheat crop requires 17,000 hands compared with 65,000 harvesters employed last year.

Radstreet's reports strength in markets for raw materials continued undiminished during the week with non-ferrous metals showing distinct gain. Gain in steel demand noted at several big centers and improved business of automobiles.

Duns finds signs of improvement both in sentiment and actual business. Increasing activities noted in steel, dry goods and leather. Improvement of the time may foreshadow general expansion of business in autumn.

Petroleum imports in United Kingdom in week ended July 21st totaled 4,400,000 Imperial gallons, against 3,750,000 in preceding week.

Duns reports commercial failures for week 399, against 388 in preceding week last year.

Average price 20 industrial \$99.60, up 24 twenty rails \$90.40 up 30, new high for year, and bonds \$91.11, up 93 new high for year.

J. P. Morgan on eve of departure to London on a holiday, declares that American bankers have no desire to impress their political views on the London market, but are ready to give expert advice.

MORNING COTTON LETTER

Thomson & McKinnon

NEW YORK, July 26.—Eastern belt had scattered showers. Abilene Texas had 0.02 inch of rain with maximum temperatures only 80. Official Texas total today will probably show light showers north and east Texas, and cooler. East Texas forecast is partly cloudy, cooler in interior. West Texas probable showers extreme western portion. All other cotton states fair.

Good business in Worth Street, larger trade in Fall River, Hartford special says textile conditions better in Connecticut. Journal of Commerce special reports better from Tennessee and Arkansas show improvement.

News from Texas will be the governing factor but aside from that the technical position now is such that a further set-back is easily possible.
